LIVING IN BEAR COUNTRY

This video is the consensus opinion of leading experts on living safely in bear country.

Living in Bear Country provides practical advice on ways to minimize problems with bears in the places that people live.

This program shows how making few simple adjustments to our daily routine can reduce property damage and increase human safety. By living responsibly in bear country both individuals and communities can help prevent conflicts with bears; making things safer for themselves and the bears.

Presented by the Society in Bear Country Society in cooperation with the International Association for Bear Research and Management. Produced by Wild Eye Productions, BC.
